Profile

Final-year Computer Science student and Software Developer with hands-on experience building production mobile and web applications using React, React Native and TypeScript. Contributed to customer-facing platforms, business management systems, and freelance client projects, working on payment integrations, QR workflows, deep linking, OCR-assisted features, and Android release management. Experienced in debugging complex codebases, integrating APIs, and delivering features in fast-paced product environments.

Professional Experience

Software Developer, *GarageWale Autotech Pvt. Ltd* 12/2025 – Present
Apps : Partner App | User App Ahmedabad, India

- Contributed to the production readiness and development of GarageWale's Partner and User mobile applications using React Native.
- Developed CRM, booking, package management, and customer engagement features for garage owners.
- Integrated Razorpay subscriptions, Vehicle Tag workflows, deep linking, and OCR-assisted vehicle number plate scanning.
- Managed Android release builds and resolved production issues across customer-facing mobile applications.
- Collaborated with backend teams on API integrations and cross-application workflow synchronization.

Software developer intern, *Bmv system integration pvt Ltd* 05/2025 – 12/2025
Ahmedabad, India

- Contributed to a React-based ticket management platform by developing UI features and resolving application issues.
- Worked on a legacy React Native dating application, implementing new screens, resolving application issues, and generating mobile builds.
- Assisted with API documentation and collaborated with backend teams during feature development.

Full-Stack Developer Intern, *Tecoreng* 01/2025 – 04/2025
Ahmedabad, India

- Contributed to frontend development using React across multiple web applications.
- Worked on HRMS-related modules and collaborated using Git-based development workflows.

Freelance Experience

Jewelry E-Commerce Website

- Developed responsive frontend interfaces using React
- Implemented shopping and user-facing e-commerce workflows.

Leela Films Website

- Developed and deployed a company portfolio website using React and Tailwind CSS.
- Built admin functionality and implemented client branding requirements.
